

The HARIA P41 and B55 are both special and unique, waiting for you to make them your own and to convey your emotions through your music like never before on an electronic instrument. Set the stage on fire!

Haria is available in two versions: Haria P41 (piano keyboard) and Haria B55 (button keyboard). These next-generation accordions are perfect to express yourself in front of a large audience with the same articulation and refinement as on an acoustic instrument. For the first time ever, the grand accordion tradition is truly enhanced by technology: Haria looks, feels, plays and responds like a fine acoustic accordion but adds massive sonic options.

High-quality keyboards crafted by Bugari: the HARIA-series will feel instantly familiar for traditional players. The keyboards with a genuine accordion touch provide a perfectly natural feel and response.

The Natural Air Flow System accurately simulates the bellows response of an acoustic accordion. It works the same for keys and buttons: when a key is pressed, a lever system lifts a pallet, allowing the air to flow to the hole. The result: perfectly natural movements of the bellows.

The digital sounds and the underlying technology are supplied by Roland. BUGARI and Roland have teamed up to satisfy even the most exacting requirements of accordion players. Haria is the perfect combination of Bugari's enviable acoustic accordion experience with Roland's unsurpassed sound generation technology.
